Cleaning and Maintenance

Regular Maintenance:

- Remove dust or debris with compressed air or clean water every six months.

Persistent Dirt:

- Lightly sand the affected area using fine sandpaper (400 grit).
- Rinse with clean water and allow to dry completely.

Minor Repairs:

- In case of scratches or small stains, apply water-based pigment of the same color.

Do Not Use:

- Strong acids (such as muriatic acid), abrasive products, metal brushes, or industrial solvents.
-

Warranty

Flexstone complies with international standards and certifications ASTM, SGS, CE, and EN 15102:2019.

With proper installation and maintenance, the product offers a service life of over 20 years without discoloration or delamination.

The warranty covers manufacturing defects, provided that:

- Recommended adhesives are used.
- Installation and maintenance conditions outlined in this manual are followed.
- The product is not exposed to extreme conditions outside of specification.
